Selected Resources for the
Physical Therapist Assistant (PTA) Program
2013

The College of DuPage Library is located in the Student Resource Center. During the academic year, the Library is open every day of the academic year at the following times:

Regular Hours:

<table>
<thead>
<tr>
<th>Day</th>

</tr>
</tbody>
</table>

For a current listing of holiday Library closings and adjusted vacation operating hours (when classes are not in session), consult [http://www.cod.edu/library/services/currentquarter.htm](http://www.cod.edu/library/services/currentquarter.htm).

The Library Reference staff consists of 21 (10 full-time and 11 part-time) professional librarians and 11 reference assistants. A minimum of 2 librarians and 1 reference assistant is scheduled for each day of the week and weekend hours. During peak weekday hours, minimum staffing includes 3 reference librarians and 2 reference assistants.

The library liaison to faculty and students in the PTA Program is Debra J. Kakuk Smith, Associate Professor, Reference Librarian. Smith is an experienced instructor and medical librarian. For more information see: [http://www.cod.edu/library/libweb/Kakuk/Kakuk.htm](http://www.cod.edu/library/libweb/Kakuk/Kakuk.htm)

Instruction and Reference Services

Students can access the C.O.D. Library's resources 24 hours a day, 7 days a week via the Internet at the URL [http://www.cod.edu/library](http://www.cod.edu/library). Students must use their library card barcode numbers to access electronic databases and to place holds or Interlibrary Loan (ILL).

Students receive reference assistance in person, by phone, email, or instant message during library operating hours. The electronic (email) reference service is called “Ask a Librarian.” “Ask a Librarian” questions are answered throughout open hours of operation and students can expect a reply to their questions within 24 hours of submission. Users may instant message Librarians during open hours of operation using AOL Instant Messenger, Yahoo!, MSN, Google Talk, or Jabber chat services. Students may directly contact particular librarians as well. Smith’s contact information is: Debra J. Kakuk Smith, SRC 3149, smithkak@cod.edu, (630) 942-4305.

An online Consumer Health Resources Guide located at [http://www.cod.edu/library/libweb/Kakuk/consumer_health.htm](http://www.cod.edu/library/libweb/Kakuk/consumer_health.htm) provides students and faculty with: catalog links, recommended reference materials in the College of DuPage collection, Internet sites (including associations, organizations, consumer/general information and reference sites), health information literacy information, and APA citation style tips. The materials range from those suitable for patient education to information geared to health science students and practicing professionals. PTA students also have access to a Physical Therapy
Research Guide located at http://www.cod.edu/library/libweb/Kakuk/pt.htm containing information pertinent to their current studies and professional development. This research guide was created and is currently maintained with direct input from the Physical Therapist Assistant Program Faculty.

Students have access to 100+ Gateway Workstations throughout the two floors of the main campus COD Library. In addition, wireless laptops with access to all library resources are available for student checkout and use within the library (including small group and quiet study areas). The Library supports wireless access for students with personal laptops, and also provides a cluster of external network connections at one end of its public computing area so that people bringing their own laptops can connect to the Internet. The Library workstations and laptops have productivity software (Microsoft Office Suite) installed on them and a variety of printing options are available. Students can also load educational software and check-out headphones at the circulation desk for use with interactive CD-ROMs. The workstations have software that reinstalls an original build every time the workstations are shut down or restarted. Reference librarians and technical support staff are available to assist students with computer/technology-related questions.

Faculty members are encouraged to schedule specialized library instruction and research assistance with the Health Science Division Librarian, Debra J. Kakuk Smith. The Library and Health Sciences faculty work together to create quality information literacy assignments that assist the PTA students in becoming lifelong learners. The library has hands-on computer labs equipped with enough workstations for each student as well as an instructor station and digital projector. Additional library classrooms are available with instructor workstations, digital projectors and three-dimensional document readers for demonstration classes. A library classroom is equipped with two-way video conferencing that is used for distance learning and meetings in an asynchronous environment. On and off campus classroom visits and instruction sessions can be arranged by contacting Debra J. Kakuk Smith.

Each semester of the academic year, including summer, the library offers free computer workshops for students to become Smart Online Searchers. Students may choose to attend, in-person or online, workshops on a wide-range of topics such as Introduction to the Library, Research Strategies, APA Documentation, Consumer Health, Job Seeking, Internet Basics and Advanced Online Search Strategies. Classes are offered during the day, evenings and weekends. Students can view information about the workshops online from the Library's Web site.

Journals, Periodicals and Online Database Offerings

The College of DuPage Library provides print journals and periodicals in support of the PTA curriculum. Students in the program also have access to periodicals through electronic databases. Through the College of DuPage Library Home Page (http://www.cod.edu/library/), PTA students have 24 hour, 7 days a week access to the College of DuPage Library catalog and the article databases.

The College of DuPage Library subscribes to 90+ electronic databases and approximately 15,400 electronic books. PTA students have access to numerous health and science related databases such as the Cumulative Index to Nursing and Allied Health Literature (CINAHL), Gale’s Health Reference Center-Academic and Academic OneFile, HealthSource: Nursing/Academic and Consumer (from EBSCO), ScienceDirect, Micromedex Health Care Series (including CareNotes), and MEDLINE. Full text access is also available to numerous journal articles on line which expands the library’s periodical holdings for students and faculty.

In addition to “traditional” periodical databases, the C.O.D. Library provides PTA students with access to ADAM Interactive Physiology (Networked version), full-text reference book access
using The Gale Virtual Reference Center, and test preparation materials available in the Learning Express Library database.

PTA Program Journals

The College of DuPage subscribes to 470 print periodicals. PTA students have access to approximately 45 online and print journals and magazines specific to Physical Therapy. Many other Health and Medicine-related titles are available. The Library periodical holdings (online and in print) are available for perusal online in a conveniently arranged subject list at: http://sc9jf5ze6e.search.serialssolutions.com/?V=1.0&L=SC9JF5ZE6E&N=100&SS_searchTyp eJournal=yes&S=SC&C=HE0062
(See Appendix B: Imaging Journals, pp. 6-9).

Interlibrary Loan (ILL)

Students enrolled in the PTA Program have 24-hour access to our Interlibrary Loan (ILL) Department. Students and faculty are able to search and submit their requests for journal and periodical articles, book chapters and books electronically from COD workstations or at home. The College of DuPage has online access to thousands of Online Computer Library Center (OCLC) Libraries in our local area and around the world. These libraries provide our students and staff with access to millions of items that are not available in our collection. The Ariel Document Delivery System allows our interlibrary loan department to request and receive student interlibrary loan materials electronically from locations worldwide. Documents received through Ariel can also be emailed directly to students and faculty.

Students and faculty may pick up their materials at the College of DuPage Library for free, or have the materials mailed to their homes for a minimum fee of $2.00 per package. For materials that must be returned, items can be mailed, or dropped off at convenient College of DuPage book drops located on the main campus as well as the Regional Centers in Westmont, Addison and Naperville, Illinois.

Students can request assistance with the use of journals and periodicals via the “Ask a Librarian” online reference service (email), via phone, or in person.

Print Collection

Library holdings in PTA and related disciplines provide a broad range of materials that are relevant to the curriculum. Students with the desire to do more research in the medical areas have access to over 9,500 medical-related books, audiovisuals and software programs. New library materials (including journals, books, software, models, DVDs and VHS tapes) are added to the collection on an ongoing basis. Acquisitions are based on the recommendations of program faculty and the recommendations of the division librarian, Debra J. Kakuk Smith, who develops the collection and manages its budget. Ms. Kakuk Smith utilizes the Doody’s Core Titles in the Health Sciences list, The Medical Library Association’s Master Guide to Authoritative Information Resources in the Health Sciences, as well as other medical review resources to assist in ordering materials. The opinions and suggestions of program faculty regarding the current collection and possible new resources are solicited throughout the academic year. The division librarian coordinates weeding (deletion) of out-of-date materials with input from the program faculty. A core list of print, audio visual and software programs specific to the PTA program is included with this report (See Appendix C: Select PTA Library Resources, pp. 10-28).
College and Career Information Center

The College and Career Information Center (CCIC), located on the second floor of the library, provides a multimedia collection of information on educational opportunities, occupational choices, and job-seeking skills. Computer programs such as SigiPlus and Horizons are available to help in choosing an appropriate college or career. Trained staff members are on duty to assist users in this area. Examples of PTA materials in the CCIC collection include licensure exam preparation review books; career guides for PTA program graduates (videos as well as books); information on other academic institutions and admission tests/requirements; resume and interview materials for health care careers and Internet sites for PTA-related organizations and associations.

Science Material and “Hands-On” Resources

In addition to the core PTA program materials, the COD Library has an extensive collection of basic science material including: anatomy, physiology, chemistry, pharmacology, and microbiology. Students may also check out microscope slides, bones, anatomical models (See Appendix A), interactive software programs and other realia for hands-on experience and review. These items are physically housed at the Library’s Circulation Desk.

Audiovisual Materials

A variety of videos (VHS and DVD formats) and DVD ROM or CD ROM titles specific to the PTA program are contained in the College of DuPage library collection. Additional audio visual (and print) resources also are available in the collection on topics such as human anatomy and physiology, Universal Precautions, HIPAA regulations, transcultural medical delivery, medical ethical and legal issues and other topics pertinent to health care students, faculty and professionals. Program faculty often preview and provide feedback on the usefulness and accuracy of audiovisual materials (DVDs, VHS, CD-ROMs) prior to the Library purchasing the items. Program faculty review Library holdings to ensure clinical accuracy of content.

Individual video monitors, cassette and CD/DVD players as well as computer workstations are available on the first floor of the library for student and faculty use. A video viewing room is also available for group viewing. The Library has an audiovisual distribution center that delivers equipment to classrooms throughout the main campus and the west campus. The Library’s faculty “booking” system allows instructors to reserve and pick-up AV materials for classroom viewing. Audiovisual materials and equipment can also be delivered to off-campus classrooms and regional centers.

Circulation Services

Faculty may place specific materials on reserve at the Circulation Desk for students. Reserve materials ensure that all students will have access to reference materials or other high-demand items. The reserve collection also contains a variety of anatomical models for use within the library (see Appendix A: Library Anatomical Models list, p. 5).

Students are able to place materials on hold by phone or online by accessing the library’s Web site. Students may pick up hold materials at the circulation desk or have the materials mailed to them for a minimum fee of $2.00 per package. Students may return items by mail or drop them off at convenient College of DuPage book drops located on the main campus as well as the Regional Centers in Westmont, Addison and Naperville, Illinois.
Appendix A
College of DuPage
Library Anatomical Models List

Bones/Skulls/Torsos
1 deluxe 24-part dual-sex torso
1 mini-torso
1 male skeleton, sacral mount
1 female skeleton, sacral mount
2 sets: upper and lower half disarticulated skeletons (natural bone)
5 sets: upper and lower half disarticulated skeleton (plastic);
  4 include skulls
10 whole skulls (5 plastic, 5 real bone)
1 flexible spine with occipital bone and pelvis
1 male and female pelves
2 median cut skulls
3 disarticulated skulls (plastic)
1 foot skeleton, elastic-mounted
1 hand skeleton, elastic-mounted
3 bullfrog skeletons
2 cat skeletons

3-Dimensional Free-Standing Models
7 left-arm muscle models
6 left-leg muscle models
1 deluxe vascular arm
1 deluxe flexible knee (articulating cartilage of the knee)
2 brain models with arteries
1 brain ventricles model
2 right half head and neck musculature
1 seven-piece vertebrae collection
1 cartilages of the larynx model
1 human larynx and tongue model
2 larynx, trachea, bronchi model
1 lung microstructure model
2 giant three-part ear
1 small ear model
1 inner ear model (large)
2 giant eye in bony orbit
1 half eye model
1 five-part eyeball
2 kidney models
2 liver and gallbladder models
2 pancreas with spleen and part of duodenum
1 stomach model
2 Heart of America models
2 heart models (small)
2 skin models
1 synapse model

Dental Models
1 advanced half lower jaw with 8 additional diseased teeth
1 dental study model-adult mouth
1 dental study model- primary individual teeth
1 dental study model-primary mouth
1 human upper & lower jaw
1 mixed dentition dental model
1 primary dentition dental model
1 space maintenance dental model
1 teeth: common pathologies

Tray Type Models (Hubbard)
2 digestive system models
1 circulatory system model
1 endocrine system model
2 urinary system models
2 respiratory system models
1 nervous system model
1 ear model
1 eye model
1 frog model
2 female reproductive system model
2 male reproductive system model
2 cell to embryo models
1 human skin model

Plaque-Type Display Models
1 Median section of brain (head)
2 Bloody Bill (circulatory system)
2 Nervous Ned (nervous system)
1 Lymphatic Larry (lymphatic system)
1 Spinal Sally (spinal cord in the spinal canal)
2 kidney, nephron, and glomerulus set
2 deluxe spinal cord (upper thoracic - Sectioned both longitudinally and in cross section)
1 urinary organ model
1 death of a lung (smoking) model

- Models must be returned put together.
- Do not mix contents of boxes of different bone sets.
- The Library does not have a duplicate set of all of the models available in the Anatomy & Physiology labs. We try to add to the collection annually, but not every A&P lab model is available or affordable.
Appendix B
45 journals found in the COD Library
Health & Biological Sciences: Physical Therapy
