

NURSI 2130 Blackboard Posting Assignment

Instructions

1. Form groups of no more than five people. Groups must stay within your lecture class. In other words, Carino and Taylor
2. Each person should take a question and answer it or it can be a group effort together.
3. You will need to use at least three citations **in total** in your paper to justify your answers. Feel free to use more than three but three is the minimum. An APA guide is posted in Blackboard to help assist you.
4. Please type 12 font Times Roman, double spaced please. Turn in via in word format attachment under assignment tab for blackboard post by 11/20/15 midnight.
5. Provide at least three citations in APA format.
6. References should NOT be more than 5 years old.
7. Postings should reflect learning, insight, critical thinking, application to practice, and deep learnings.
8. See rubric under blackboard post assignment folder.
9. Note: you must back up answers with citations and credible sources. Wikipedia is not a credible source. See resources under sexuality/violence sections.
 - a. Example: If you say something like-you believe sexual orientation is innate. That can be an opinion, but give me something as to why you say what you say. In other words, is there a research journal article that talks about the neurobiology of sexual orientation.

Questions

1. Do you think a person's sexual orientation is innate (at birth) or developed over time? Why or why not?
2. Compare and contrast similarities and differences between these groups: Lesbian, Bisexual, Transgender, and Questioning in relation to social media/stigma, governmental boundaries, discrimination, and religious groups.
3. Compare and contrast healthy versus unhealthy sexual relationships.
4. How do you go about assessing violence in a sexual relationship?
5. What are your solutions to
 - a. Decrease the stigma for the groups listed in #2?
 - b. Better integrate differing views on sexuality and different sexual orientation preferences into society?
